[Face Mask Pattern](#)

UnityPoint Health in Cedar Rapids, Iowa

[FreeSewing](#)

FreeSewing is an open source platform for made-to-measure sewing patterns. They're providing several facemask patterns on PDF and an instructional video that shows how to make them.

[Joann's Make to Give Mask](#)

Resources for making masks, drop off at Joann's Fabrics store

[Make A Mask](#)

Make A Mask is providing a tech kit with a free fabric face mask template, complete with digital pattern, suggested materials, and sourcing info for making masks at home. It's also looking to partner with manufacturers to make masks, accepting donations and distributing masks.

[Operation We Can Sew It!](#)

Operation We Can Sew It! is providing a cloth mask design approved by Saint Joseph Hospital in Denver, CO and SCL Health facilities. All masks made to the specifications of our pattern will be accepted at these facilities and may be elsewhere but this should be approved beforehand.

[Rosie Sews](#)

Rosie Sews is providing patterns for sewing face masks as well as coordinating the efforts of seamstresses, makers and manufacturers to make masks and other supplies for use by medical professionals, at-risk community members and essential workers. They're also working on converting maker spaces across the nation into supply production sites.
